"I am committed to the education, exercise, and evaluation of the character and athletic development of every student-athlete. This is accomplished by creating a safe, positive, and effective culture in which student-athletes strive to achieve individual excellence within a team dynamic. It is my goal to inspire, encourage and improve every athletes' level of play and empower them with the ability to creatively progress themselves for the rest of their lives."

"I champion the belief that everything you do matters; valuing good character, critical thinking and decency as the foundation for all my actions and guidance. It is my calling to encourage and instruct every student to gain wisdom, knowledge, and the aptitude to serve others and become qualified to merit ever increasing missions of responsibility and impact. This is initiated by marrying wonderment and curriculum, within a structured and orderly environment, which empowers any daring to try, while still honoring the process that results must be earned."
